

Preface

Notes to readers

In this Learning Center you will find information about the EHR-S FM Profiling Tool. Also you will find instructions of how to develop a Functional Profile with support of the EHR-S FM Profiling Tool. The basis for this tool was The EHR-S FM, release 2. The development of the tool was approved by both the EHR workgroup and the Tooling workgroup.

The Preface aligns with phase 2 of the development process of the EHR-S FM Profiling Tool. If HL7 International decides to carry out a next phase of the development process, this Preface will change accordingly.

Acknowledgements

The project team is indebted to the EHR and Tooling Workgroup for their contributions towards the development of the EHR-S FM tool and the User Guide presented here. We are thankful to every person who was able to contribute, whether for a short period of time, or week-in/week-out work. We cannot thank you enough. Direct and indirect participants in the development of the tool, including workgroup contributors and other participants, can be found in the in table 1.

Name	Role	Organization
John Ritter	Co-chair EHR WG	
Gary Dickinson	Co-chair EHR WG	
Helen Stevens-Love	Co-chair EHR WG
